### NATURAL DIGESTIVE

# **DIGEST-EV**

**DIGEST EV®** is a complete natural product which has active principles useful to favor the physiological digestive process in its total complexity and in each of its stages.

**FOOD SUPPLEMENT** 30 blister chewable tablets 1g each

### **SELECTED NATURAL ACTIVE PRINCIPLES**

#### Green Anise (Pimpinella anisum) fruits

rich in carminative, stomachic and antispasmodic acting substances.

# Fennel (Foeniculum vulgare) fruits

reduces the formation of intestinal gases and favors the elimination thereof (carminative action).

# Pineapple (Ananas sativus) stem

rich in proteolytic enzymes which resolve proteins into their primary constituents (amino acids) and thus facilitate digestion thereof.

## Papaya (Carica papaya) fruits

contains papain, an enzyme which resolves the proteins taken with the diet and naturally favors the digestive processes.

## Peppermint (Mentha piperita) leaves

digestive above all others, Peppermint is carminative and eupeptic: it stimulates the digestion increasing the tone of the peristalsis

#### **Aspergillus Oryzae fermented maltodextrins**

special mixture of enzymes extracted from Aspergillus Oryzae mushroom fermented maltodextrins: the product resulting from such fermentation is a substance extraordinarily rich in enzymes which favor the digestion and absorption of nutrients.

#### Caraway (Carum carvi) fruits

Caraway carries out a high intestinal antifermentative action, which makes it useful in case of dyspeptic disorders, irritable intestine and tympanites.

# Marian thistle (Sylibum marianum) fruits

Marian thistle may be useful in the treatment of functional problems related to a bad digestion, such as the poor bile afflux.

#### Gentian (Gentiana lutea) root

known for its strongly bitter flavor, it is rich in mucilage and tannins: such substances are responsible for its bitter-eupeptic action, which also regulates the intestinal motility.

#### Ginger (Zingiber officinale) root

rich in functional vegetable eupeptic and cholagogic principles.

# **HOW TO USE**

It is recommended to take 1-2 tablets a day, slowly dissolving them in the mouth, after meals.
